CLIENT HUB

Amara's Birth Plan

Due Jan 14, 2027 · 80% complete

Completion 80%

BIRTH SETTING

Planned location	Home birth
Birth partner	David Mitchell
Hospital/backup	Northside Medical Center

LABOR PREFERENCES

Mobility during labor	Walking, rocking, birth ball
Pain management	Breathing, massage, hydrotherapy
Monitoring	Intermittent auscultation preferred
Labor induction	Only if medically necessary

PUSHING & DELIVERY

Pushing position	Upright, hands-and-knees
Episiotomy	No, unless essential
Cord clamping	Delayed 1-3 minutes

POSTPARTUM

Immediate skin-to-skin	Yes, for at least 1 hour
Feeding preference	Breastfeeding, support requested
Newborn procedures	All non-urgent deferred

SPECIAL NOTES

Amara prefers minimal intervention. Partner wants to be present for all decisions. No photography during delivery.

Note: Birth plan is 80% complete. Amara has 2 sections remaining: postpartum recovery preferences and emergency contingency plan. Reminder to follow up at next visit.

AMARA MITCHELL

Notes

Birth and postpartum care log

Sep 22, 2026 · 2:30 PM
Prenatal visit #4 completed. Amara reports feeling good, energy levels stable. Birth plan review: updated preferences for pain management — wants to add aromatherapy option.
Renée (Doula) · Updated

Swipe left on a note to edit or delete it.

Sep 20, 2026 · 9:15 AM
Amara shared updated birth plan via app. Added preference for delayed cord clamping and partner presence during all decisions. Reviewed and confirmed.
Renée (Doula) · Created

5, 2026 · 11:00 AM
atal visit #3. Amira's blood pressure normal,
dal height on track. Discussed signs of labor and
n to call. Birth plan at 60%.
e (Doula) · Created

Sep 10, 2026 · 4:45 PM
Initial consultation completed. Amara and David met to discuss birth preferences. Client is interested in home birth with hospital backup. Contract sent.
Renée (Doula) · Created

Full contract history and templates

cream canvas lavender primary rose accent rose soft lavender light

Function inventory — Birth Plan Review: birth plan progress bar (80%) · sectioned preferences (birth setting, labor, pushing, postpartum) · special notes field · per-client scoped view · edit action. **Not in mockup on purpose:** clinical data fields (doula role has showClinicalData=false per DOULA_CONFIG), visit summaries (showVisits=false), birth summary (showBirthSummaries=false). **Reorganizes:** real app shows birth plan as a tab inside client detail hub; mockup gives it its own page for clarity.

Function inventory — Notes: client-scoped note list (Prenatal/Birth/Postpartum/General categories) · note entries with date, text, author · filter chips · add-note input · scrollable list. **Not in mockup on purpose:** note creation modal (shown as inline input only), image attachment, note sharing with client, search across all notes.

Function inventory — Contracts: contract list with status chips (Signed/Sent/Pending) · contract cards showing client name, amount, services, status · action buttons (View Details, Re-send, Follow Up, Send Reminder) · "View All Contracts" link. **Not in mockup on purpose:** contract template management (separate Contract Templates screen), contract creation wizard, e-signature flow, contract duplication, PDF download, contract deletion.

Amara Mitchell · 2m ago
Thanks for the check-in! Birth plan looks good. I've updated the preferences section.

Jess Rivera · 1h ago
Hi! Just wanted to confirm our appointment for tomorrow. See you at 10am!

Kim Park · 3h ago
Can we reschedule our appointment to next week? My schedule changed.

Tara Nguyen · 5h ago
I have a question about my contract terms. Can you clarify the postpartum visit count?

Maya Lin · 1d ago
Looking forward to our first meeting next week!

Lead Insights

New client inquiries this month

5 NEW LEADS	2 CONVERTED

Note: Lead insights appear on the Profile screen for doula role. The real app shows this on a dedicated Leads screen; mockup consolidates it here for the profile hub.

cream canvas lavender primary rose accent rose soft lavender light

Function inventory — Profile/Settings: profile header with initials avatar (SR), name, role, bio, specialties · 2×2 stat grid (active clients, births attended, rating, years active) · settings list (Profile, Availability, Notifications, Privacy, Account) with toggle for notifications · subscription card (Professional Plan, billing date, features) · lead insights section (new leads, converted) · tab bar. **Not in mockup on purpose:** profile photo upload (protected zone), account deletion flow, subscription upgrade/downgrade, notification preferences detail, privacy settings detail, help/support screen, onboarding flow, bio editing modal. **Reorganizes:** real app has separate Profile and Settings tabs; mockup consolidates into one screen per the s13s14s15 pattern. Lead insights appear on a dedicated Leads screen in the real app but are shown here as part of the Profile hub for the doula role.
