Hi! Just wanted to confirm our appointment for tomorrow. See you at 10am!

cream canvas lavender primary rose accent rose soft lavender light

Function inventory — Invoices: invoice list with status chips (Due/Paid/Overdue) · amount display · copy-to-clipboard action · "I've Paid - Notify Provider" action · disclaimer card (money never flows through app) · "View All Invoices" link. **Not in mockup on purpose:** payment processing (money never flows through app per design), payment method management, automatic payment reminders, invoice PDF download, refund handling, tax reporting, recurring invoices.

Function inventory — Appointments: today's appointments with check-in action · upcoming appointments with confirm/reschedule/cancel · on-call status indicator · appointment type badges (Prenatal Visit, Birth Plan Review, Postpartum Check-in, Consultation) · location type (In-person/Virtual). **Not in mockup on purpose:** calendar view, appointment creation wizard, recurring appointment setup, client self-scheduling, appointment reminders, on-call shift management, calendar sync.

Function inventory — Messages: conversation list with client avatars (initials fallback) · unread indicator (dot) · last message preview with timestamp · message input field · client-scoped conversations. **Not in mockup on purpose:** message detail view, message search, message threading, file/image sharing, message read receipts, team messaging, broadcast messages, message templates.
