Amara's *Birth Plan*

Due Jan 14, 2027 · 80% complete

Completion

80%

BIRTH SETTING

Planned location	Home birth
Birth partner	David Mitchell
Hospital/backup	Northside Medical Center

LABOR PREFERENCES

Mobility during labor	Walking, rocking, birth ball
Pain management	Breathing, massage, hydrotherapy
Monitoring	Intermittent auscultation preferred
Labor induction	Only if medically necessary

PUSHING & DELIVERY

Pushing position	Upright, hands-and-knees
Episiotomy	No, unless essential
Cord clamping	Delayed 1-3 minutes

POSTPARTUM

Immediate skin-to-skin	Yes, for at least 1 hour
Feeding preference	Breastfeeding, support requested
Newborn procedures	All non-urgent deferred

SPECIAL NOTES

Amara prefers minimal intervention. Partner wants to be present for all decisions. No photography during delivery.

Note:

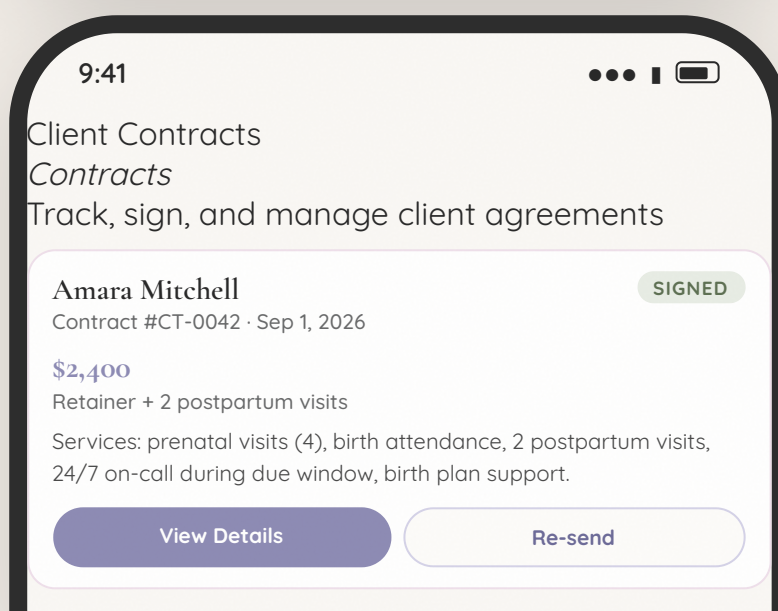

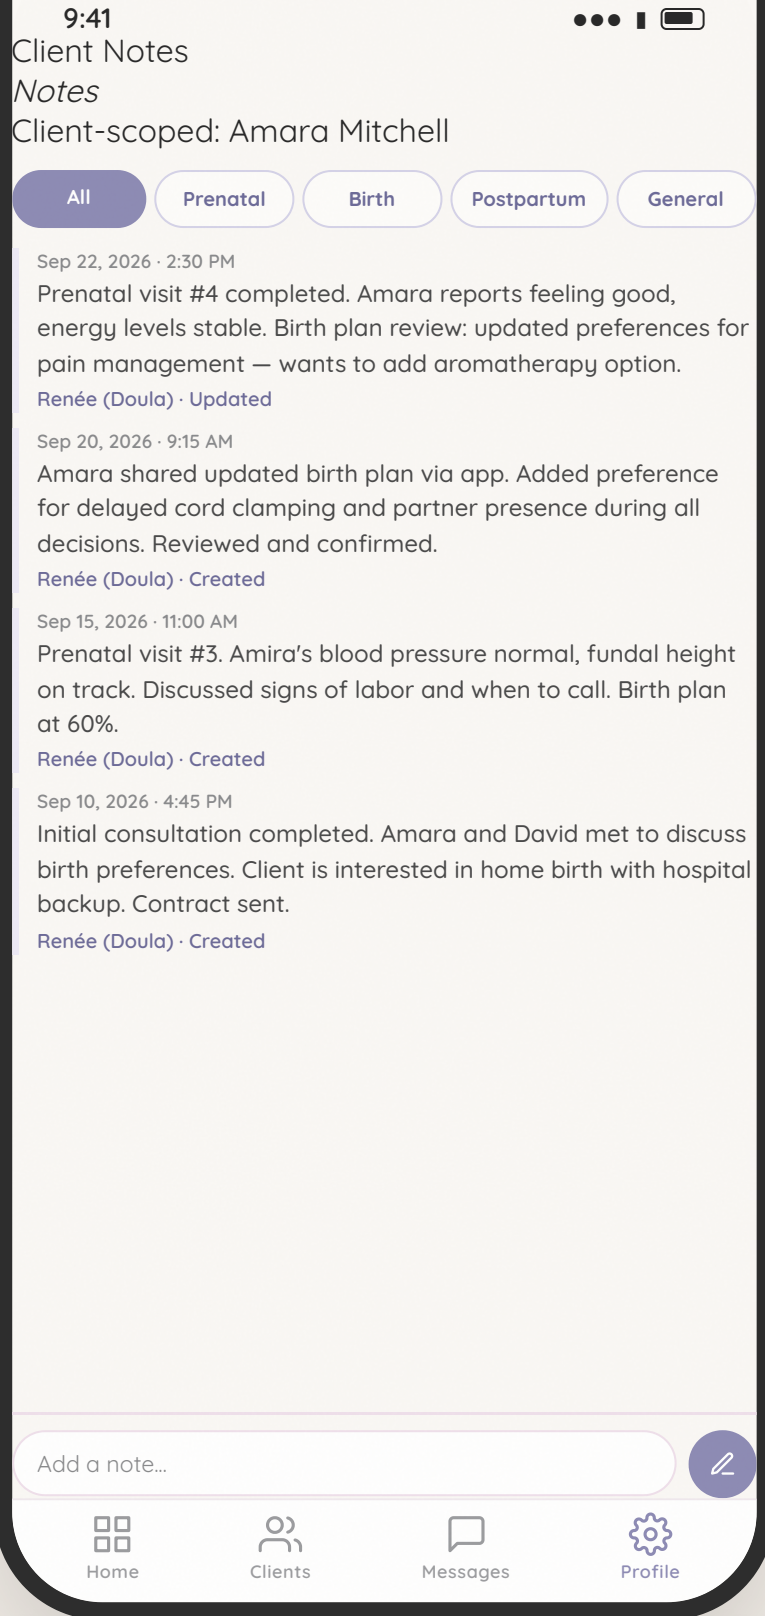

Birth plan is 80% complete. Amara has 2 sections remaining: postpartum recovery preferences and emergency contingency plan. Reminder to follow up at next visit.

Function inventory — Birth Plan Review: birth plan progress bar (80%) · sectioned preferences (birth setting, labor, pushing, postpartum) · special notes field · per-client scoped view · edit action. **Not in mockup on purpose:** clinical data fields (doula role has showClinicalData=false per DOULA_CONFIG), visit summaries (showVisits=false), birth summary (showBirthSummaries=false). **Reorganizes:** real app shows birth plan as a tab inside client detail hub; mockup gives it its own page for clarity.

Function inventory — Notes: client-scoped note list (Prenatal/Birth/Postpartum/General categories) · note entries with date, text, author · filter chips · add-note input · scrollable list. **Not in mockup on purpose:** note creation modal (shown as inline input only), image attachment, note sharing with client, search across all notes.

Function inventory — Contracts: contract list with status chips (Signed/Sent/Pending) · contract cards showing client name, amount, services, status · action buttons (View Details, Re-send, Follow Up, Send Reminder) · "View All Contracts" link. **Not in mockup on purpose:** contract template management (separate Contract Templates screen), contract creation wizard, e-signature flow, contract duplication, PDF download, contract deletion.

Hi! Just wanted to confirm our appointment for tomorrow. See you at 10am!

cream canvas lavender primary rose accent rose soft lavender light

Function inventory — Invoices: invoice list with status chips (Due/Paid/Overdue) · amount display · copy-to-clipboard action · "I've Paid - Notify Provider" action · disclaimer card (money never flows through app) · "View All Invoices" link. **Not in mockup on purpose:** payment processing (money never flows through app per design), payment method management, automatic payment reminders, invoice PDF download, refund handling, tax reporting, recurring invoices.

Function inventory — Appointments: today's appointments with check-in action · upcoming appointments with confirm/reschedule/cancel · on-call status indicator · appointment type badges (Prenatal Visit, Birth Plan Review, Postpartum Check-in, Consultation) · location type (In-person/Virtual). **Not in mockup on purpose:** calendar view, appointment creation wizard, recurring appointment setup, client self-scheduling, appointment reminders, on-call shift management, calendar sync.

Function inventory — Messages: conversation list with client avatars (initials fallback) · unread indicator (dot) · last message preview with timestamp · message input field · client-scoped conversations. **Not in mockup on purpose:** message detail view, message search, message threading, file/image sharing, message read receipts, team messaging, broadcast messages, message templates.

Function inventory — Profile/Settings: profile header with initials avatar (SR), name, role, bio, specialties · 2x2 stat grid (active clients, births attended, rating, years active) · settings list (Profile, Availability, Notifications, Privacy, Account) with toggle for notifications · subscription card (Professional Plan, billing date, features) · lead insights section (new leads, converted) · tab bar. **Not in mockup on purpose:** profile photo upload (protected zone), account deletion flow, subscription upgrade/downgrade, notification preferences detail, privacy settings detail, help/support screen, onboarding flow, bio editing modal. **Reorganizes:** real app has separate Profile and Settings tabs; mockup consolidates into one screen per the s13s14s15 pattern. Lead insights appear on a dedicated Leads screen in the real app but are shown here as part of the Profile hub for the doula role.
